Date of Birth: 17 July 1998 · Nationality: Dutch

Gijs Joppe Moens

Curriculum Vitae

Professional Experience

- Sep 2023 – Present **Researcher**, *Netherlands Cancer Institute*, Amsterdam
Research on enhanced prostate MRI segmentation through spectral oriented neural invariant convolutions
- Jun 2021 – Present **AI Solutions Architect (Lead)**, *Province of South Holland*, The Hague
○ Bridge organisational requirements with feasible AI solutions; supervise a small R&D team.
○ Architect and prototype a compliance analytics platform to support integrity investigations.
- 2018 – 2020 **Compliance Officer**, *Various Trust Offices*, The Hague
Ensured adherence to Dutch and EU financial regulations; drafted internal control protocols.

Education

- Sep 2022 – Jul 2024 **M.Sc. Artificial Intelligence**, *University of Amsterdam*, Amsterdam
○ GPA: 8.2/10
○ Focus areas: geometric deep learning, graph neural networks, reinforcement learning, signal processing.
- Sep 2019 – Jul 2022 **B.Sc. Business Analytics**, *Vrije Universiteit Amsterdam*, Amsterdam
○ GPA: 7.5/10
○ Interdisciplinary programme combining mathematics, computer science, and economics.
- Aug 2021 – **Exchange Minor**, *Hanken School of Economics*, Helsinki
Dec 2021 Advanced modules in mathematics and computer science.

Publications & Research

- **Working paper (under review)**: SONIC: Spectral Oriented Neural Invariant Convolutions.
- Moens, G. J., de Witte, J., Göbel, T. P., & van den Oever, M. A. A. (2023). Reproducibility study of fairness-enhanced node representation learning. *ReScience C*, 9. OpenReview
- Scalar representation on equivariant graph networks for molecular force prediction. Code
- Enhancing Monte Carlo Tree Search under uncertainty. Code
- Genetic algorithm for the multi-trip multi-vehicle routing problem. Code
- Full-stack development of a French homestay booking site. Website

Technical Skills

Programming: Python (advanced), C++, CSS, HTML5, JavaScript, SQL (working proficiency)

Frameworks: PyTorch, JAX, CUDA, NumPy, Docker, AWS, Git, Neovim

Languages: Dutch (native), English (fluent)
